“The importance of a strong community cannot be understated. Strong communities allow individuals to experience first-hand what it means to stand together, allowing them to create long-lasting friendships and connections so that they can thrive in their new environment.”

Coventry University

Our Aim

We want to establish a strong community foundation that will become the bedrock of the project and ultimately contribute to facilitating economic growth and change.

The MyCoventry project will serve as a flagship initiative, demonstrating to other Midlands regions and beyond that by investing in Refugees and Migrants, you are investing in progressive social change and economic prosperity for all within the region.

We want

- To utilise community spaces such as Youth Centres to encourage social interaction and integration
- To connect local and national businesses with young migrants and refugees seeking work or volunteering opportunities
- To train refugees and migrants in practical and transferable skills
- To ensure that everyone feels protected and knows what services to turn to in the event of distress or emergency
